Dear Mrs. Vasquez and Mr. Runyon,

I would like to thank you for the wonderful performance you did for our students and staff. The students thoroughly enjoyed it. The presentations certainly reflected and depicted life and beliefs of the Hispanic culture. The body movements, tone of voice and expressions used reminded me of folks I knew growing up as a child. The costumes used were also delightful. The information you shared with staff about drama and some of the activities they could use to motivate students in this area were very useful. I would also like to encourage you to send any information or literature that our students could benefit from to enhance a greater knowledge of our people's traditions and culture. Again, thank you for your support in helping to enlighten others about our heritage.

Respectfully,

  
Evelyn Jimenez, Principal
